POSITION: Peter and Stephanie Nolan Professor, Associate or Full (9 month appointment, tenured/tenure track)

ANTICIPATED START DATE: August 2016

RESPONSIBILITIES: Outstanding applicants are sought in any area of business management and strategy for this new named chair. The chair is intended for a distinguished faculty member with an established track record of research published in leading academic outlets, excellent teaching skills, extensive public visibility, and demonstrated impact in influencing industry practice or policy making.

We have particular interest in candidates whose research is in the following areas: business analytics, corporate governance, data science, environmentally sustainable business, entrepreneurship, international/global business, or technology and innovation. The successful candidate will be expected to maintain a highly impactful program of research relevant to broad societal, economic and business issues and to communicate results to public audiences and practitioners as well as academic peers. It is also expected that the incumbent will be actively engaged with undergraduate and graduate students as a teacher, adviser and mentor. The candidate will be called upon to take a leadership role in strengthening the Dyson School’s research and instructional capacities in their area of expertise and in fostering collaboration with faculty in all areas.

OPPORTUNITIES: The Charles H. Dyson School of Applied Economics and Management is an internationally renowned school in the areas of management, food and agricultural economics, environmental, energy and resource economics, and international and development economics. The undergraduate program is consistently recognized as one of the elite accredited business degrees in the U.S. The graduate program awards research degrees at the doctoral and master’s levels and a professional master’s degree.

Dyson faculty members often work with faculty and students in the Johnson Graduate School of Management, Department of Economics, Computing & Information Science, the School of Industrial and Labor Relations, and the School of Hotel Administration, and many other units at Cornell. There are strong cross-campus research concentrations in the areas of behavioral science, innovation and entrepreneurship, sustainability, quantitative analysis and big data, emerging markets, applied microeconomics and industrial organization, and agricultural and life sciences.

The Charles H. Dyson School of Applied Economics and Management, and the College of Agriculture and Life Sciences at Cornell University embrace diversity and seek candidates who will create a climate that attracts students of all races, nationalities and genders. We strongly encourage women and underrepresented minorities to apply.

QUALIFICATIONS: A Ph.D. in management/business, economics, or a related field, and significant research and teaching accomplishments consistent with academic leadership, as well as proven external visibility in business and/or public media.

APPLICATION: Electronically submit via https://academicjobsonline.org/ajo/jobs/5527 your letter of application summarizing research and teaching interests; a curriculum vita; a current research
paper and any other publications; copies of teaching evaluations; and names of three references. References will not be contacted without prior approval. For more information, please see http://dyson.cornell.edu/open-positions/index.php#faculty or email nolanprofessor@cornell.edu

SALARY: Competitive with other leading business schools and commensurate with qualifications and experience. An attractive fringe benefit package is included.

CLOSING DATE: Review of applications will begin June 1, 2015 and continue until an acceptable candidate has been identified and hired.

CORNELL UNIVERSITY IS AN AFFIRMATIVE ACTION/EQUAL OPPORTUNITY EMPLOYER
