

APPLE COSTS, 1943

Western New York, 50 Farms in Niagara County

Hudson Valley, 43 Farms in Ulster County

by

G. P. Scoville

Assisted by Frances Pringle, Helen Farling, and Estelle Starway

Acknowledgments

This study was possible because the fruit growers, although very busy last summer, took the time and had the interest and patience to answer carefully the many questions asked. Assistance in the field was given in Niagara County by J. H. Stevenson, a graduate student at Cornell, and by Professor F. A. Pearson; and in Ulster County by Dr. D. B. Ferguson, Extension Economist in this department, and M. E. Buckley, Agriculture Instructor in the Marlboro High School. Dr. Ferguson also suggested the method used in obtaining costs and helped summarize the data.

February, 1945

FINANCIAL SUMMARY  
50 NIAGARA COUNTY FARMS, 1943

		<u>Average per farm</u>	
<u>Capital</u>			
Real estate	\$19,486		
Equipment	3,488		
Livestock	2,106		
Other	294		
		<u>\$25,374</u>	
 <u>Receipts</u>			
Apples	\$11,075		
Other crop sales	4,542		
Other	4,372		
		<u>\$19,989</u>	
 <u>Expenses</u>			
Labor hired	\$2,858		
Unpaid labor	539		
Feed purchased	1,424		
Gas & machinery repairs	1,307		
Spray & dust	1,167		
Packages	941		
Livestock bought	384		
Building repairs	353		
Fertilizer, lime	304		
Taxes, county, school	279		
Custom packing	188		
Electricity, telephone	112		
Insurance	101		
Other	518		
		<u>\$10,475</u>	
Income from capital and operator's labor			\$ 9,514
Interest on capital @ 5%			<u>1,269</u>
Labor income			\$ 8,245
Value operator's time			\$ 1,796
Return on capital			\$ 7,718
Per cent return			30.4%

1. Did these farmers ever have so many dollars? (see page 6)

FINANCIAL SUMMARY  
43 ULSTER COUNTY FARMS, 1943

	<u>Average per farm</u>	
<u>Capital</u>		
Real estate	\$38,650	
Equipment	4,052	
Livestock	858	
Other	350	\$43,910

Labor income		\$ 9,509
Value operator's time		\$ 2,172
Return on capital		\$ 9,533
Per cent return		21.7%

The greatest difference in the farms studied in Ulster and Niagara Counties was in their

- (a) Farm capital
- (b) Farm receipts
- (c) Labor incomes

## VARIATION IN LABOR INCOMES, 1943

Labor income	Number of farms	
	Ulster County	Niagara County
Minus	2	1
\$1 to 1,000	4	4
1,000 to 2,000	6	3
2,000 to 4,000	5	8
4,000 to 8,000	11	19
8,000 to 16,000	6	8
16,000 to 32,000	7	6
Over 32,000	2	1
Total farms	43	50
Average labor income		
Median	\$6,060	\$5,384
Mean	\$9,509	\$8,245

1. As shown in the above table, great differences occur in the profitableness of farms; that is, in labor incomes. Why?
2. Is the variation in wages among hired men anything like as great as the variation in labor incomes among farmers?
3. Is a hired man or a farmer the more likely to receive exactly what he contributes to society?
4. Would we have the greater variety and abundance of food if produced collectively or individually?

Last summer labor incomes were obtained on 46 farms in the Newfane area and on 26 farms in other parts of Niagara County. Apple cost data were also secured on 50 of these farms. The frequency on this page is for the 50 farms. Averages for 46 farms in the Newfane area are given on the next page.

PRICE LEVEL, LABOR INCOME, FARM WAGE AND VALUE  
OF REAL ESTATE FOR 31 YEARS

Average	137		656	450	229	31	179

\*Prices 40 basic commodities on pre-World-War-I base

Why are labor incomes in this war so much higher than in the last war?

## PRICES, YIELDS, NEWPANE AREA

	World War I 1918	World War II 1943	Increase
<u>Prices</u>			
Apples, bu.	\$1.29	\$2.35	\$1.06
Apples, ciders, bu.	0.29	0.62	0.33
Peaches, bu.	2.48	4.40	1.92
Pears, bu.	1.58	2.94	1.36
Cherries, lbs.	0.066	0.093	0.027
Prunes, 1/2 bu.	1.48	2.16	0.68
<u>Yield per acre</u>			
Apples, bu.	162	131	-31
Peaches, bu.	18	18	0
Pears, bu.	41	140	99
Cherries, lbs.	1,632	2,017	385
Prunes, 1/2 bu.	104	175	71
<u>Fruit sales per farm</u>	<u>\$4,153</u>	<u>\$7,425</u>	<u>\$3,272</u>

Why are fruit prices in this war so much higher than in the last war?

The fruit produced on these farms in 1943 sold for \$3,272 more than it would have brought at 1918 prices.

YOUR SHARE OF THE PUBLIC DEBT

Source - "Statistical Abstract of the United States," 1943, page 283 and recent numbers of "Survey of Current Business," United States Department of Commerce.

1. What was the public debt per capita? (a) Before World War I \$ \_\_\_\_\_  
 (b) At the end of World War I \$ \_\_\_\_\_ (c) Before World War II \$ \_\_\_\_\_
2. According to the budget estimates of the United States government, what will the public debt per capita be in 1946? \_\_\_\_\_
3. For how many years now has the public debt been increasing? \_\_\_\_\_
4. When will the budget be balanced after World War II is over? \_\_\_\_\_
5. How have fruit prices been affected by  
 (a) deficit financing?  
 (b) rationing?
6. In the last war the government borrowed money for about 4% and in this war for about 2%. What effect does the lower interest rate have on inflation?

LABOR COSTS  
50 NIAGARA COUNTY FARMS, 1943

	Average per farm		
	Months	Rate per month	Value
<u>Unpaid labor</u>			
Operator, wage	12.0	\$150	\$1,796
privileges	--	59	702
Partner,			
wage and privileges	2.1	188	398
Others	3.0	93	282
Total unpaid	17.1	\$185	\$3,178
<u>Hired labor</u>			
Wage only	10.8	141	1,513
Wage	7.5	105	786
Privileges	--	28	207
Wage	3.8	97	369
Board	--	29	112
Total hired	22.1	\$135	\$2,987
Total hired and unpaid	39.2	\$157	\$6,165

The farmer was asked the value of his time; that is, what would be a fair wage or salary if he worked the farm as a manager.

1. What was the average value of the farmer's time in Niagara County? \$ \_\_\_\_\_
2. Did the Ulster County growers value their time for more or less than this amount? \_\_\_\_\_ Why?

Some of the farms, especially the larger ones, were operated by two or three brothers or by a father and one or two sons. The value of the partner's time and that of wife and children are listed in the above table as "unpaid labor." When the son was paid regular wages, his time was included with the other hired labor.

3. Was more unpaid or hired labor used on the farms  
in Niagara County? \_\_\_\_\_  
in Ulster County? \_\_\_\_\_

LABOR COSTS  
43 ULSTER COUNTY FARMS, 1943

	Average per farm		
	Months	Rate per month	Value
<u>Unpaid labor</u>			
Operator, wage	12.0	\$185	\$2,215
privileges		58	697
Partner,			
wage and privileges	3.3	193	638
Others	3.2	101	318
Total unpaid	18.5	\$210	\$3,868
<u>Hired labor</u>			
Wage only	27.3	\$111	\$3,029
Wage	17.8	95	1,699

Commission, cartage, etc.	0.02		0.08
Land, school tax, insurance	0.05		0.03
Fertilizer, manure	0.03		0.03
Grading hired	0.00		0.04
Use of buildings	0.03		0.02
Interest on costs	0.02		0.02
Depreciation and other costs	0.04		0.03
	<u>\$1.69</u>		<u>\$1.63</u>
Credit,			
Cider apples, wood, etc.	0.04		0.10
Cost packable apples	\$1.65		\$1.53
Price received	2.56		2.48
Profit per bushel	\$0.91		\$0.95

## VARIATION IN APPLE COSTS, 1943

Cost per bushel up to grading	Number of farms		Per cent of bushels	
	Ulster County	Niagara County	Ulster County	Niagara County
Less than \$0.70	0	4	0	8
0.70 - 0.90	7	10	29	18
0.90 - 1.10	9	13	29	41
1.10 - 1.30	4	6	8	16
1.30 - 1.50	8	7	17	10
1.50 - 1.70	6	5	11	4
1.70 - 1.90	2	0	2	0
1.90 - 2.10	1	1	0	2
2.10 - 2.30	0	2	0	1
2.30 - 2.50	1	0	1	0
2.50 - 2.70	1	0	1	0
2.70 - 2.90	2	1	1	0
2.90 - 3.10	1	0	1	0
3.10 +	1	1	0	0
Total farms	43	50	100	100
Average cost				
Median	\$1.31	\$1.08		
Mean	\$1.18	\$1.06		

1. Why are there such differences in costs?
2. Within what cost range did the largest number of Niagara County growers fall?
3. On the average, did the Niagara or the Ulster County growers grow and pick the 1943 apple crop the cheaper?

APPLES.  
NEW YORK COST ACCOUNT FARMS

Source - Twenty-five years of Farm Cost Accounts, Cornell Extension Bulletin 439 and A.E. 502

1. During inflation which rises the higher, farm costs or farm prices?
2. During deflation which falls the lower?

Compared with the average of the six preceding years, the cost per bushel of apples in 1943 increased only 12 cents, while price increased 97 cents. The wide spread between cost and price gave the cost account farmers the unusual profit in 1943 of 91 cents per bushel.

3. How does this compare with the profit made by the growers interviewed in Niagara and Ulster Counties? (see page 11)

## PACKAGE COSTS, 1943

Kind of package	Per cent of apples packed		Cost per package	
	Ulster County	Niagara County	Ulster County	Niagara County
1 1/8 bushel box	93	50	24¢	28¢
bushel basket	2	49	13	22
1 1/5 bushel box	2	--	13	--
1/2 bushel box	2	--	10	--
bushel carton	1	--	26	--
orange crate	*	--	13	--
1/2 bushel lug	--	1	--	15
	<u>100</u>	<u>100</u>		
Per cent of crop sold in packages furnished by grower	91	63		

\*Less than 1 per cent

1. Were packages cheaper in Niagara or Ulster County? Why?
2. For a bushel of apples produced, why was the package cost lower in Niagara County than in Ulster?
3. Why did the Niagara growers use as many baskets as boxes while the Ulster County growers use more boxes?

STORAGE COSTS, 1943

Factors	Ulster County 43 farms		Niagara County 50 farms *
	on farm	not on farm	
Number of farms	14	29	50
<u>Apples stored per farm</u>			
Grower storages, bushels	10,182	2,782	519
Other storages, bushels	286	716	2,493
Per cent of crop stored	85%	81%	65%
<u>Storage charge per bushel</u>			
Grower storages	14¢	22¢	14¢
Other storages	20¢	20¢	21¢
<u>Apples per farm</u>			
Acres, bearing age	72	34	31
Bushels per farm	12,249	4,341	4,659
Bushels per acre	169	129	153
<u>Profit per bushel</u>			
Price	\$2.64	\$2.44	\$2.48
Cost	<u>1.53</u>	<u>1.81</u>	<u>1.53</u>
Profit	\$1.11	\$0.63	\$0.95
<u>Total profit</u>			
Apples	\$13,588	\$2,755	\$4,447
Other farm enterprises	1,571	1,254	2,002

\*Only two of the growers interviewed in Niagara County had their own cold storage.

1. Why have the growers built more cold storages in Ulster than in Niagara County?
2. Why did the growers having own storage get better prices than the others?

## GRADING COSTS, 1943

Graded	Per cent of apples		Grading cost per bushel	
	Ulster County	Niagara County	Ulster County	Niagara County
On farm				
Grader	42	37	12¢	10¢
Table	11	7	12¢	6¢
By hand	32	5	9¢	6¢
Off farm				
Grader	0	22	--	16¢
Total graded	85	71	11¢	11¢
Not graded	15	29	--	--
Total	100	100	9¢	8¢
Per cent of graded apples graded out of storage	37	61		

1. What proportion of the apples was custom packed  
in Ulster County? \_\_\_\_\_  
in Niagara County? \_\_\_\_\_  
Why? \_\_\_\_\_

The OPA price ceilings, announced on October 22, 1943, varied as to region, season and type of sale, but not as to the variety, grade, or size of apples.

2. How did this announcement affect grading?
3. Why in 1943 did Ben Davis sell as high as McIntosh?
4. How in the past have buyers told growers how much more they preferred McIntosh to Ben Davis?

YIELD OF PACKABLE APPLES
