FARM BUSINESS MANAGEMENT PROGRAM GUIDELINES,  
SUGGESTIONS AND RESOURCES

STUART F. SMITH

Department of Agricultural Economics  
New York State College of Agriculture and Life Sciences  
Cornell University, Ithaca, New York

It is the policy of Cornell University actively to support equality of educational and employment opportunity. No person shall be denied admission to any educational program or activity or be denied employment on the basis of any legally prohibited discrimination involving, but not limited to, such factors as race, color, creed, religion, national or ethnic origin, sex, age or handicap. The University is committed to the maintenance of affirmative action programs which will assure the continuation of such equality of opportunity.

FARM BUSINESS MANAGEMENT PROGRAM GUIDELINES,  
SUGGESTIONS, AND RESOURCES

Introduction

The information contained in this bulletin should be useful to cooperative extension agents in planning farm management programs and activities. One specific use is for reporting Department of Agricultural Economics program offerings and available resources to agents attending the annual program development workshops held in September 1982.

Faculty, staff, and students at Cornell may also find that this is a useful reference. The farm management program guidelines and suggestions can be used to help describe a viable farm management program. The lists of program offerings, training schools, and farm management faculty provides a valuable summary of the time and resources the farm management staff contributes to extension programs.
